Chute to Finish

Canada's premier waste equipment manufacturer and service provider

Over the past 20+ years, we have been assisting architects, developers, and property management companies across Canada in the design, installation and service of multi-family waste equipment – with thousands of waste system installations to our credit, including various LEED® certified properties.

We are CANAM Waste Products, Canada's premier waste equipment manufacturer and service provider dedicated to high-rise residential buildings. Our team makes planning your next waste and recycling equipment project cost-effective and straightforward. Enjoy peace of mind knowing we can handle everything from CHUTE to FINISH.

We pride ourselves on being one of Canada's most experienced waste product companies. Our expertise makes it easier for you to design and install the most efficient waste handling system for your project.

We provide residential projects with the latest waste and recycling equipment technology and apply our extensive experience during the building construction and installation process. Every residential building project presents unique challenges; our team provides expert advice and support to determine the best solution for your application and overall project success.

**Industry
leaders in
Trisorter retrofit
and new
construction**

CANAM PRODUCT LINES INCLUDE:

- Waste management reports
- TriSorters and BiSorter recycling systems
- Garbage compactors
- Garbage and linen chutes
- All sizes of garbage, recycling and organics containers
- Air Purification Systems
- Bin Buddy container mover systems
- Retrofits and new construction

Air Purification Systems

Air purification system with ultraviolet germicidal bulbs

Ultraviolet light technology is ideal for building garbage rooms that struggle with dirty air. Bacteria, viruses, mold and contaminants are sterilized by germicidal UVC while airborne then treated by UVV photolysis.

STANDARD FEATURES

- High intensity bulb odour elimination
- CSA approved
- Durable steel casing
- Consistently filters “dirty” garbage room air using a 300 cfm impeller blower
- Destroys chemical and biological odours
- Supported by one (1) year manufacturer’s warranty

BENEFITS

- Replaces problematic spray systems, including blocked nozzles
- Eliminates staff inhaling spray-type chemicals
- No spray in the room which rusts away compactors and bins

NEUTRALIZES HARMFUL BACTERIA & AIRBOURNE CONTAMINANTS

PARTICULATE

CHEMICAL

ODOURS

BIOLOGICAL

Containers

Garbage, recycling and organic front-end loading containers

DUAL FRONT-END LOADING RECYCLING AND ORGANICS

Designed for front-end loading applications where space is limited.

2 AND 3 YARD CONTAINERS

Heavy-duty solid steel construction with steel or reinforced plastic lids and heavy-duty casters for easy maneuvering.

CANAM COMPACTORS

Combining technology with solid steel construction. CANAM is a premier manufacturer of multi-family garbage compactors. All CANAM compactors meet and exceed municipally specified compaction ratios, ensuring maximum savings.

Heavy duty construction

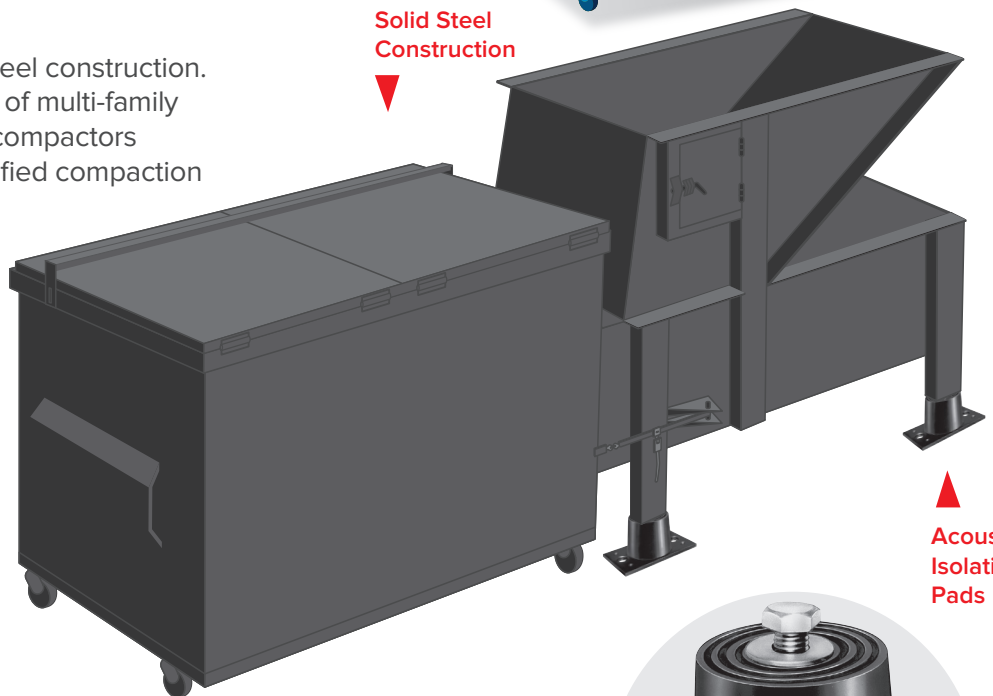

Acoustically Isolating

Heavy duty casters

Solid Steel Construction

Acoustic Isolation Pads

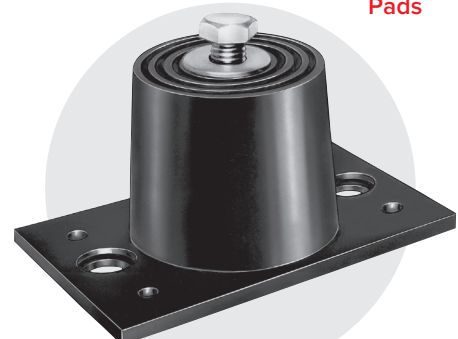

BISORTERS AND TRISORTERS

Trisorter and BiSorter experts in sales and installation for residential multi-family buildings.

Heavy duty towing casters

Acoustic isolation pad

TriSorter System

This innovative system separates garbage, recycling and organics waste improving efficiency and waste diversion

Developing products and services that raise productivity so that property managers can run their waste control and recycling – smoother, cleaner, smarter.

CANAM manufactures the most durable and reliable systems on the market with the quality, reliability and durability that you expect.

- Lower costs & increase productivity
- Improve safety and compliance
- Add value to your building
- Increased waste recycling diversion

TRISORTER SPECIALISTS

An experienced North American manufacturer offering TriSorter sales for new construction and retrofits

DESIGNED TO FIT YOUR NEEDS

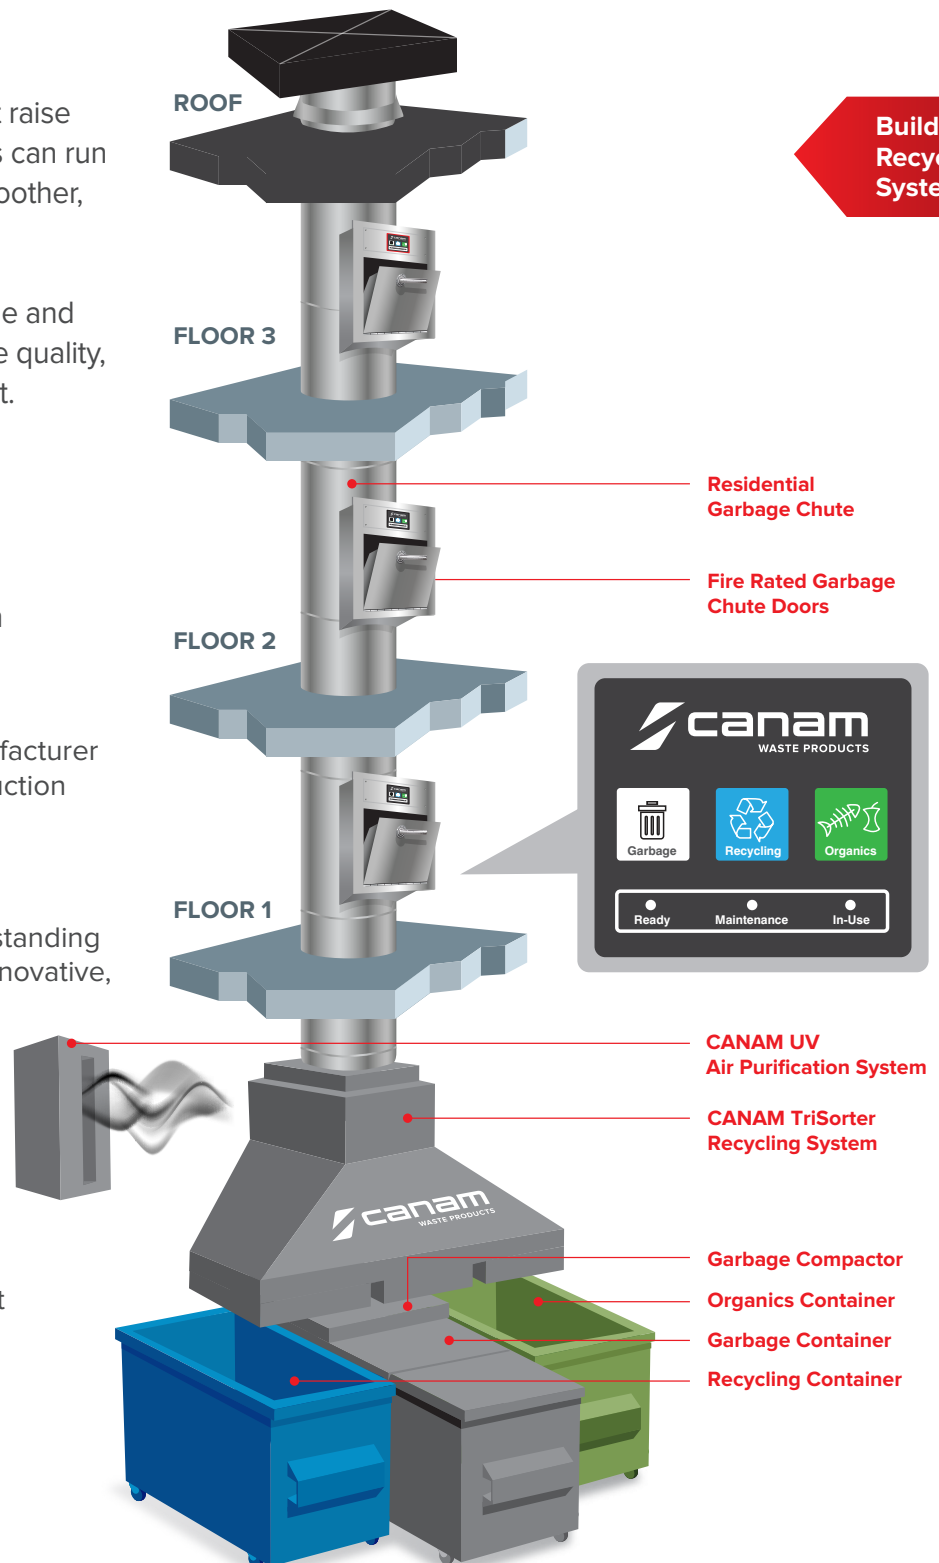

Success means clear and deep understanding of our customer's business to create innovative, customized solutions that are suited to the particular needs of each waste management system.

EXPERIENCE & INNOVATION

Over 20 years working with North American property management companies, developers and architects. CANAM has the most extensive project expertise - from single floor properties to the tallest buildings.

PREVENTIVE MAINTENANCE

Quarterly, semi-annual and annual packages available.

Chute Doors

CANAM has the most extensive expertise in Canada, from single floor properties to multi-story building projects

Linen Intake Door

Stainless Steel

2 HOUR FIRE RATED DOOR

RISE 60 MIN. 250°C

WARNOCK-HERSEY TESTED

- Side hinged, hand operated door with 180° swing
- Brushed satin finish silent self-closing, self-latching mechanism
- Solidly welded stainless steel: 13 Ga door and frame; 16 Ga. basket
- Engineered for easy maintenance and parts replacement

Recycling Intake Door

Electroplated Chrome

2 HOUR FIRE RATED DOOR

WARNOCK-HERSEY TESTED

- Bottom hinged, hand operated door with silent self-closing, self-latching mechanism
- Rugged handles with chrome plated finishes
- Welded steel construction throughout; door and frame in 11 Ga; Basket in 14 Ga
- Engineered for easy maintenance and parts
- Integrated control panel for selective disposal

Garbage Intake Door

Electroplated Chrome

2 HOUR FIRE RATED DOOR

WARNOCK-HERSEY TESTED

- Bottom hinged, hand operated door
- Electroplated chrome finishes
- Silent self-closing, self-latching mechanism
- Rugged handles with chrome plated finishes
- Welded steel construction throughout; door and frame in 11 Ga; Basket in 14 Ga
- Engineered for easy maintenance and parts

Quality Service Dedication

Multi-family waste and recycling specialists
for new construction and retrofits
